January 24, 2007

SECTION OF ROUTE 30 WILL CLOSE FOR ROUTE 210 CONSTRUCTION IN SAN BERNARDINO

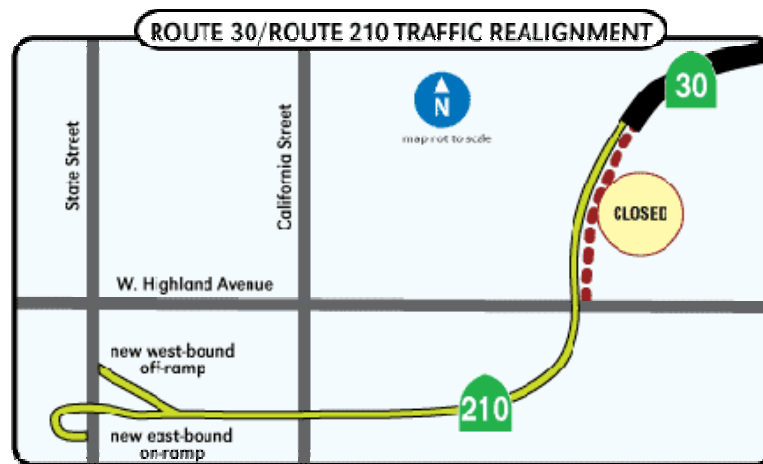

A section of Route 30 will close north of Highland Avenue near Interstate 215 in San Bernardino for the construction of new eastbound Route 210 lanes. This section of Route 30 will be closed and removed permanently.

As early as January 28, motorists will be detoured onto the newly constructed Route 210 lanes between Highland Avenue and State Street. Once construction is complete, these will be the permanent westbound Route 210 travel lanes. As a detour, there will be one westbound lane and two eastbound lanes open to motorists. This detour will remain in place until the eastbound Route 210 lanes are built and the freeway opens to motorists later this year.

Vehicles will be able to enter and exit the freeway at the new State Street eastbound on-ramp and westbound off-ramp as well as H Street on Route 30 east of Interstate 215. However, the loop connector from eastbound Route 30 to northbound I-215 will remain closed until the completion of the freeway.

Please note that weather conditions have created uncertainties in scheduling this permanent closure. Dates are subject to change.

Please see the map below.

For more project information, call the Route 210 toll-free helpline at 1-866-HELP-210 or visit the SANBAG website at www.sanbag.ca.gov. SANBAG and Caltrans appreciate your patience during construction of this new freeway. Please allow extra time when traveling through the construction area and follow all signs and detour routes.

Remember, Safety: It's no accident!
